I'm a customer success specialist and developer who loves making things, storytelling, and learning. My experiences in production, taught me to plan three steps ahead and stay organized. My passion for storytelling helps me articulate my ideas to colleagues and clients accurately and effectively. And my love of learning means I'm always looking for new challenges.

Professional Experience

Sr. Technical Escalations Engineer

Datadog

New York, NY

2020 - Present

- Investigate and debug customer escalations across six products in Datadog's suite of Cloud Security Products, lead technical calls with clients, and resolve complex customer issues.
- Partner with Software Engineering and Product Management teams on tracking common customer issues and identifying trends to improve customer experiences and quickly find and fix bugs in the platform.
- Develop and lead training sessions for the Technical Support Engineering team to level up their knowledge of Datadog Security products
- Stood up new Cloud Security department, designed and implemented standardized workflows that coordinate across six products and six different stake holding departments in both Solutions and Engineering.

Software Engineering Immersive

General Assembly

New York, NY

2019

- Developed fluency in full-stack web development through completing an intensive three-month program focused on Javascript, CSS, React, RESTful APIs, and Github.
- Worked collaboratively on paired programming algorithm exercises, and during one of our week long full-stack sprints.
- Built an API from scratch using Express and Ruby on Rails to set up back-end databases.

Content Coordinator

The Mill

New York, NY

2017 - 2019

- Produced shoots in New York, Los Angeles, and Vancouver for proprietary technology tests, behind-the-scenes, and 2nd unit.
- Generated budget estimates and manage working budgets during preparation for and shoot days of productions.
- Executed payment of invoices, reconciliation of petty cash, processing of payroll, and actualization of budgets.

Assistant to Mike Myers

NoMoneyFun Films

New York, NY

2015-2017

- Participated in writing sessions developing 9 different projects.
- Organized, created materials for, and assisted with several major studio pitch sessions.
- Scheduled and orchestrated personal and professional travel itineraries for 10 trips a year, including hotels, transportation, and event coordination.
- Trained new employees on above responsibilities.
